

PINN Generalization: Absolute Error on Top Surface ($z=H$)

Best and Worst Cases by Mean Absolute Error

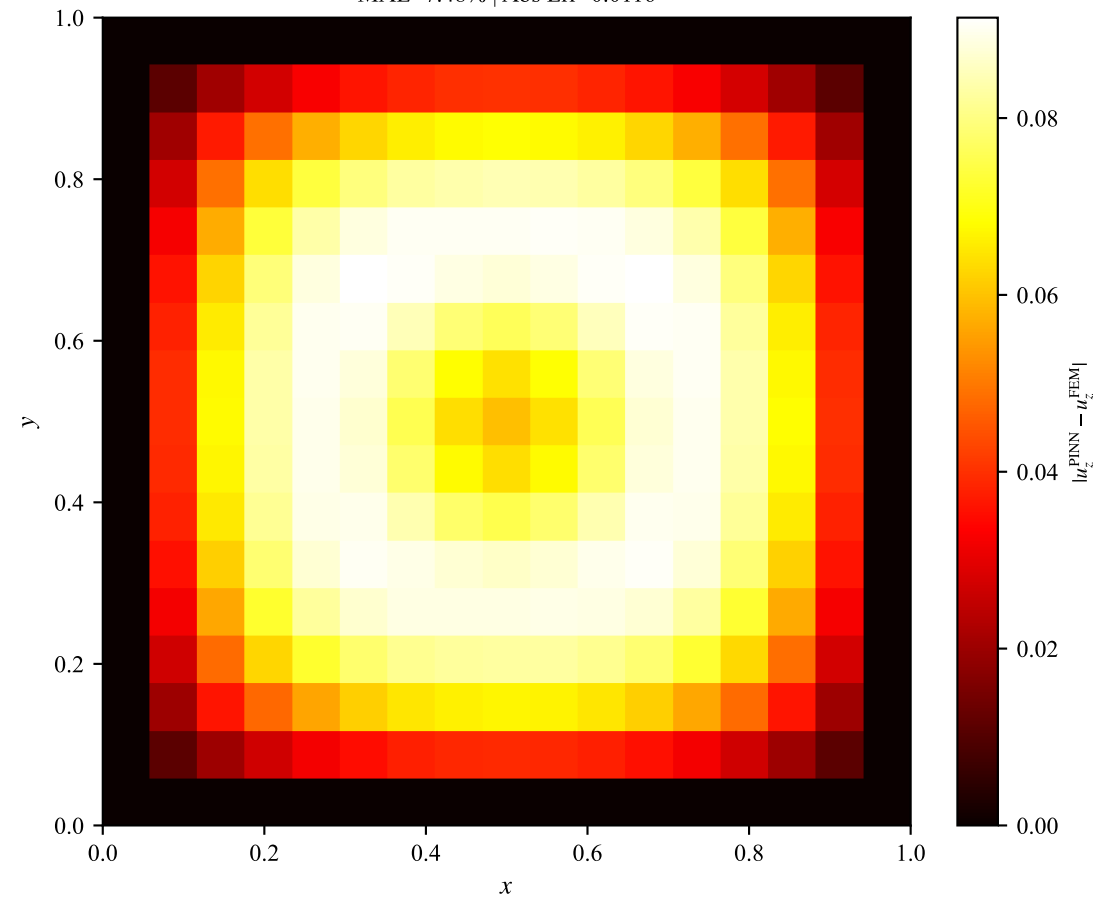

(a) One-Layer: Best Case
 $E = 1.36, t = 0.083$
 MAE=0.80% | Abs Err=0.0248

(b) One-Layer: Worst Case
 $E = 9.20, t = 0.054$
 MAE=7.54% | Abs Err=0.1028

(c) Three-Layer: Best Case
 $E = [1.3, 7.5, 6.9]$
 $t = [0.029, 0.031, 0.100]$
 MAE=7.48% | Abs Err=0.0116

(d) Three-Layer: Worst Case
 $E = [1.2, 9.3, 7.2]$
 $t = [0.063, 0.026, 0.051]$
 MAE=16.52% | Abs Err=0.0670
